Gail was aware at the age of six that she had a gift with which she was able to see spirits and visions of what was to come. Using this gift, Gail has worked directly with law enforcement agencies around the world, helping solve numerous cases involving missing and exploited children. Recently Gail's gift has expanded, and she is now able to communicate with animals. Come see Gail as she helps bring closure and healing to many in her audience--- an experience you will never forget.

By completing your purchase you are acknowledging that attending this event does not guarantee you will receive a personal reading and or connection to a loved one. For legal reasons.
